PROJECTS

Calculator Application

Efficient Calculation and Mathematical Tool

Oct 2023

- Designed a user-friendly calculator application with a clean and intuitive interface.
- Implemented standard mathematical functions, including addition, subtraction, multiplication, and division.
- Included memory functions for storing and recalling previous calculations.
- Ensured compatibility across various devices for versatile usage.

Personal Portfolio Website

Showcasing Skills and Achievements in Style

Sep 2023 – Present

- Designed and developed a responsive personal portfolio website showcasing my skills, projects, and achievements.
- Utilized HTML, CSS, JavaScript, and Bootstrap for the front-end design and interactive elements.
- Implemented a blog section to share insights and updates on web development trends.
- Implemented interactive elements to enhance user engagement and navigation.

ToDo List Application

Effortless Task Management with Local Storage

Aug 2023

- Designed and developed a ToDo list web application using HTML, CSS, and JavaScript.
- Utilized browser storage (localStorage or sessionStorage) for data persistence, allowing users to save and access tasks locally.
- Created an intuitive and responsive user interface for task management, including features for adding, editing, and deleting tasks.

PROFESSIONAL EXPERIENCE

Huawei Telecommunication

Technical Support Executive

- Part of the **VIP team** at Huawei Process.
- I got promoted in the **Reservation department** later on in the **chat process**.
- Certified for Excellent Performance.

Dec 2018 – Jun 2019

Jaipur
